

PEARL RIVER COUNTY UTILITY AUTHORITY
HIDE-A-WAY LAKE SEWER PROJECT

HAWL Unit _____, Lot Number _____

Property Address:

Property Owner(s):

**PROPERTY OWNER AGREEMENT FOR
ELECTRICAL CONNECTION**

In order to provide the electrical connection for the control panel to operate the on-lot low pressure sewer system equipment to be installed in the Hide-A-Way Lake Subdivision, the Pearl River County Utility Authority has entered into a contract with Jay Bearden Construction, Inc. to include the "typical" in-house electrical connection work at no charge to the property owner, up to a maximum cost of \$750.00. The "typical" electrical connection shall consist of adding a breaker to the existing breaker box and running the electrical wire from the breaker box into the attic and down an exterior wall to the control panel, but also may include other items so long as the total cost to the Authority does not exceed \$750.00 and is approved. Any connection work that is in excess of the typical and the cost exceeds \$750.00 shall be considered an "atypical" connection. Each atypical connection will be handled on a case by case basis depending upon the amount of work required for a proper electrical connection. For an atypical connection, an estimate of cost will be prepared and provided to the property owner. The typical connection will cost the Pearl River County Utility Authority an amount not to exceed \$750.00 utilizing its own contractor. The cost as estimated for any atypical installation in excess of the typical cost of \$750.00 will be the responsibility of the property owner and paid to the Authority. No work which will cost the property owner anything will be done without the permission of the property owner and payment of the additional cost for the atypical connection. All work will be performed in accordance with the National Electric Code, the International Building Code, and all other applicable codes.

SELECT OPTION:

_____ For the typical electrical connection, the undersigned property owner(s) hereby grant unto the Pearl River County Utility Authority, its contractor, subcontractor and employees full permission to enter upon my/our property and in my/our residence and install any and all necessary electrical equipment and wiring for the proper hook-up of the sewer control panel to serve my/our residence.

_____ I/We desire sewer service, but elect to handle our own electrical work at our own cost. I/We agree to have the electrical work done in a timely manner for the connection.

_____ I/We do not desire sewer service and refuse to authorize electrical connection.
